

Recommendation letter of SIA Buvkonsultants project management services

12.5-2/1

To whom it may concern,

SIA Orkla Biscuit Production (reg.No. 40203246591) is giving this recommendation letter in good faith to the company SIA Buvkonsultants (reg.No 40003473086) performing project management services for design development of the new Orkla biscuit and wafers production plant in Adazi starting from 5th of February, 2019 until 15th of september, 2020.

Overall volume of the factory building is approximately 31,097 m² split in the production area, warehouse area, kitchen area and office and staff area. The factory building has three floors and one intermedium floor for technical rooms. Several auxiliary buildings and facilities will be located in the territory, such as a raw materials siloses, security building, bicycle shed, empty plastic tank shed, pallet storage and wastewater treatment plant. Approximately 150 open air car parking places will also be included.

Project management services have been led by Senior project manager – Jekaterina Šavikina with assistance from Project manager side Marta Amoliņa.

Considering the complexity of the design project, SIA Orkla Biscuit Production hereby confirms that contractual obligations has been fulfilled by SIA Buvkonsultants specialists in a very professional and qualitative way, cooperation between parties involved in the project has been performed in constructive and operative way, ensuring fast exchange of the information and problem solving. The breath and depth of team`s knowledge combined with proven reliability served as pre-requisite for positive and successful tender result and ability to start up construction project in planned time.

Given our positive experience with SIA Buvkonsultants team we are happy to recommend using their services with believe they will serve you with the best manner possible.

Kind regards,

Henrijs Fogels

Member of the Board
